

Permanent SAS Administrator position in Chevy Chase, MD

Role: Supporting open system SAS products (Base SAS, PC SAS, SAS/IntrNet and SAS EG). Extensive work with internal customers representing a broad variety of business areas within the company.

Responsibilities:

- .. Ensuring overall system / environment stability
- .. Performing product upgrades and implementing hot fixes
- .. Working closely with company's SAS developers to provide language and product support
- .. Maintaining an accurate accounting of SAS licenses
- .. Conducting the annual SAS User Group (GSUG) conference

Requirements:

- .. Base SAS and SAS EG development
- .. Strong SQL Skills
- .. Administration experience with at least one of the following products; SAS/IntrNet, SAS EG, or Base SAS.
- .. Solid experience with UNIX and UNIX Scripting
- .. Minimum of 3 years of SAS technical and/or development experience as well as excellent analytical skills.
- .. Excellent oral and written skills
- .. Prior project management experience
- .. Self motivated individual able to work on multiple projects simultaneously and function well in a team environment.
- .. Flexible hours as this position requires team members to support internal customers off-hours and weekends on a rotating basis.

Plusses:

- .. Previous experience dealing with SAS technical support to resolve problems
- .. SAS/IntrNet development
- .. Microsoft Office Skills specifically integrating with SAS
- .. Software Development Life Cycle (SDLC) Methodology
- .. Mainframe experience
- .. DB2 experience
