

JOB POSTING

– Candidates are invited to use County web site to apply on line –

Planning Specialist III

Montgomery County Department of Health & Human Services, Rockville, Maryland

\$51,598 - \$85,463

The primary responsibility of this position is to provide data analysis using population-based health and well-being data sets that support the efforts of the community health improvement process for Montgomery County, Healthy Montgomery (www.healthymontgomery.org). The Healthy Montgomery initiative strives to achieve optimal health and well-being for Montgomery County residents using a sustainable community and consensus-driven approach that identifies and addresses key priority areas that impact the health and well-being of our community. This position is located under Health Planning and Epidemiology within the Office of the Health Officer, Public Health Services, Department of Health and Human Services. This is a data management position that is responsible for restructuring the Healthy Montgomery data repository from a SAS programming-based environment and into an SPSS programming-based environment. Responsibilities include developing analyses to support Healthy Montgomery in its planning, management, and monitoring functions related to the community health improvement process.

MINIMUM QUALIFICATIONS:

Experience: Three (3) years of experience in a planning specialization such as Public Health, Information Technology, or other related field

Education: Graduation from an accredited college or university with a Bachelor's Degree in the field of Public Health or Information Technology. Equivalency applies.

All resumes submissions must address the preferred criteria for the position which are located in the full advertisement.
